NOTICE OF PRIVACY PRACTICES

This Notice Describes How Medical Information About You May Be Used and Disclosed and How You Can Get Access to This Information. Please Review It Carefully.

If you have any questions about this Notice, please contact our Privacy Officer at the number listed at the end of this Notice.

Each time you visit a healthcare provider, a record of your care is created. Typically, this record contains medical information such as your symptoms, examination, test results, diagnoses, treatment and/or treatment plan, and billing-related information. This information is considered protected health information (PHI).

This Notice is intended to advise you about the ways we may use and disclose medical information about you. It also describes your rights and certain obligations with regard to your medical information and applies to all the records of your care generated by your healthcare provider(s) for our organization.

Our Responsibilities

Delphi Enhanced Primary Care is required to maintain the privacy of your health information and to provide you with a description of our legal duties and privacy practices regarding your health information that we collect and maintain.

We are required by law to abide by the terms of this Notice and notify you if changes are made. We reserve the right to make changes to the Notice and make the new provisions effective for all protected health information we maintain. Copies of our Notice are available in our main reception area(s) and on our website.

About You

The following describes examples of the way we may use and disclose medical information:

For Treatment:

We may use medical information about you to provide, coordinate, and manage your treatment or services. We may disclose medical information about you to other healthcare professionals such as physicians, nurses, technicians, clinical laboratories, imaging centers, medical students, or other personnel who are involved in your care.

We may communicate your information using various methods, including orally, written, facsimile, and electronic communications.

We may also provide other healthcare professionals who contribute to your care with copies of various reports and information to assist them and ensure that they have appropriate information regarding your condition, treatment plan, and diagnosis.

For Payment:

We may use and disclose medical information about your treatment and services to bill and collect payment from you, your insurance company, or a third-party payer. Examples may include contacting your insurance company for referrals, verification, or preapproval of covered services.

For Health Care Operations:

We may use or disclose, as needed, your health information in order to support our business activities. These activities may include, but are not limited to, quality assessments, employee review activities, licensing, legal advice, accounting support, information systems support, and conducting or arranging for other business activities. We may contact you to remind you of your appointment by telephone or reminder card unless requested otherwise.

Business Associates:

Business Associates (BA) provide services for our organization through written contracts and/or service agreements. Examples of these services include billing and collection and software support. We may disclose your health information to a BA so they can perform the services we have asked them to do, such as billing your third-party payer for services rendered. The BA is also required by law to protect and safeguard your health information, which is clearly defined through our Business Associate Agreement and written contracts/service agreements.

Breach Notification:

In the event that there has been a breach of unsecured protected health information (PHI) identified on behalf of our organization or a BA, you will be notified within 60 days of the breach. In addition to your individual notification, we may be required to meet further reporting requirements set forth by state and federal agencies.

Uses and Disclosures That May Be Made With Your Consent, Authorization, or Opportunity to Object

We will not use and disclose information without your written authorization, except as described in this Notice or as required by applicable laws. If you provide an authorization to use or disclose medical information about you, you may revoke that authorization, in writing, at any time. If you revoke your authorization, we will no longer use or disclose medical information about you for the reasons covered by your written authorization. However, we are unable to take back any disclosures we have already made with your authorization.

Unless you object, we may release medical information about you to a friend or family member who is involved in your medical care or who helps to pay for your care. In addition, we may disclose medical information about you to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status, and location.
